GENERAL PARTNERSHIP FOR ISSUANCE OF A)	
CERTIFICATE OF PUBLIC CONVENIENCE AND)	CASE NO. 92-101
NECESSITY TO CONSTRUCT A CELLULAR CELL)	
SITE IN BEAVER DAM IN RURAL SERVICE)	
AREA #3 (MEADE) OF THE COMMONWEALTH OF)	
KENTUCKY)	

O R D E R

On March 25, 1992, Kentucky RSA #3 Cellular General Partnership ("Kentucky RSA #3 Cellular") filed an application seeking a Certificate of Public Convenience and Necessity to build and operate a cellular radio telecommunications system for Rural Service Area No. 3 ("RSA No. 3"). RSA No. 3 includes Meade, Breckinridge, Hancock, Ohio, Grayson, Muhlenburg, Butler, Edmonson, Todd, Logan, Warren, Simpson and Allen counties. Kentucky RSA #3 Cellular has requested authorization to construct a cell site in Beaver Dam, Kentucky. Kentucky RSA #3 Cellular was previously granted authority to operate a cellular radio telecommunications system in RSA No. 3 in Case No. 90-307.¹

¹ Case No. 90-307, Application of Kentucky RSA #3 Cellular General Partnership for Issuance of a Certificate of Public Convenience and Necessity to Provide Domestic Public Cellular Telecommunications Service to the Public in Rural Service Area #3 (Meade) of the Commonwealth of Kentucky.

The proposed cell site consists of a guyed antenna tower, 400 feet or less, to be located at 539 Rochester Road, Ohio County, Beaver Dam, Kentucky ("the Beaver Dam site"). The coordinates for the Beaver Dam site are North Latitude 37° 23' 00" by West Longitude 86° 52' 28".

Kentucky RSA #3 Cellular has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the Beaver Dam cell site. Based upon the application, the tower and foundation design appear to meet the criteria of the Building Officials and Code Administrators International, Inc. ("BOCA") National Building Code, with reference to earthquake, winds, and tornadoes.

Pursuant to KRS 100.324(1), the Beaver Dam cell site's construction is exempt from local zoning ordinances. Kentucky RSA #3 Cellular has filed applications with the Federal Communications Commission ("FCC"), the Federal Aviation Administration ("FAA"), and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the Beaver Dam cell site. Kentucky RSA #3 Cellular has received approval from the FCC, KAZC, and the FAA, with the KAZC reducing the tower height to 399 feet.

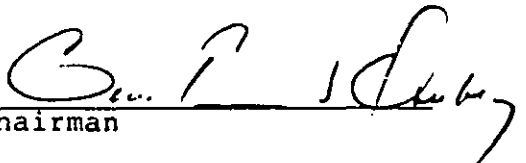

Kentucky RSA #3 Cellular has filed notices verifying that each property owner and/or resident within 500 feet of the Beaver Dam cell site has been notified of the pending construction. The notice solicited any comments and informed the property owner and/or resident of their right to intervene. To date, no comments or requests to intervene have been received.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Kentucky RSA #3 Cellular should be granted a Certificate of Public Convenience and Necessity to construct and operate the Beaver Dam cell site in RSA No. 3 under its previously approved tariff, in Case No. 90-307.

IT IS THEREFORE ORDERED that Kentucky RSA #3 Cellular be and it hereby is granted a Certificate of Public Convenience and Necessity to construct and operate a 400 foot or less guyed cellular radio telecommunications antenna tower in RSA No. 3 to be located at 539 Rochester Road, Ohio County, Beaver Dam, Kentucky. The coordinates for the Beaver Dam site are North Latitude 37° 23' 00" by West Longitude 86° 52' 28".

Done at Frankfort, Kentucky, this 15th day of June, 1992.
